The band began writing the album in early 2020, amid the onset of the global pandemic. After narrowing down the song selection and tightening them up to their well-known rock 'n

roll sound, the band hit the studio, although separately, due to the times we are in. Throughout "**ATBPO**", we hear **Night Ranger** continuing their hot streak that kicked off with 2011's "Somewhere In California". Ten years on, and two highly acclaimed albums later, "High Road" and "Don't Let Up", the band's latest studio work shows them still burning with that high octane hard rock energy they are known for. **Night Ranger** has always had a knack for killer melodies, intricate instrumentation, and captivating lyrics; "**ATBPO**" delivers all of that and more.

*"The process was strange but the outcome rocks." - **Jack Blades***

*"This record was incredibly hard to do as we could not be in a room together with all the COVID-19 issues that were going on. But sometimes you do your best work when there's a deadline approaching." - **Kelly Keagy***

*"It's been a crazy but fun task trying to write and finish this new record in a Covid situation. A few zoom video gatherings got us started. With everybody in the band having their own home studios, we were all able to elaborate and add our own textures to each song. As a Vintage Guitar Collector, I was able to add some great classic sounds to rhythm and solos using my 57 Strat and 52 Goldtop! I hope everyone enjoys the record!" - **Brad Gillis***

Having sold over 17 million albums worldwide, performed across more than 4000 stages, and enjoyed a radio audience that exceeds 1 billion, **Night Ranger** has both epitomized and transcended the arena rock sound and style well beyond that era. With multiple songs having a significant impact on popular culture, **Night Ranger** continues to grow their fanbase. The band is proof that powerful songs alongside incredibly talented musicians is the perfect formula for continued success.

**Night Ranger** is Jack Blades (bass, vocals), Kelly Keagy (drums, vocals), Brad Gillis (lead & rhythm guitars), Eric Levy (keyboards), and Keri Kelli (lead & rhythm guitars).
